

September 10, 2002

To Whom it may concern,

This past spring 2002 Shelter Cove Construction did a renovation at our summer cottage. The contracted work included making a loft space out of an existing attic, replacement of ceilings, electrical work and finishing details. A half moon window was installed as well as oak stairs.

The work was performed in the time frame contracted with the craftsmanship we expected.

Both of us were more than pleased with the results of their work and highly recommend Shelter Cove Construction.

Sincerely,

George Lukacs

Deborah Lukacs
