## Shelter Cove construction:

It is said "experience is the best teacher"

This is my experience with Paul, who in my opinion is Shelter Cove construction.

In the past few years Paul has made many improvements on my home.

From the first an extension - a 15' x 15' room with a sub-cellar for storage. Being well satisfied with the results I later continued by enlarging one of my two bathrooms to accommodate a stall shower, then following putting ceramic tile on both floors of the both rooms. Later making improvements on the outside of the house.

His ability and quality of work is second to none, his attitude always to satisfy the customer and being honest.
